

Recruiting & Hiring

Our top-rated applicant tracking system helps small businesses hire the best candidates, faster.

It enables you to post your next job, find the best candidates and hire them quickly at a lower cost. Our solution makes it easy to post your job opportunity to thousands of leading job boards!

Save time and effort

Use our digital dashboard to manage applications, create communication templates, and manage job openings

Reach more candidates faster

Get there faster with single sign-on posting to leading job boards, social media sites and your careers page

Qualify candidates faster

Qualify candidates faster and more effectively using customizable prescreening questionnaires with knock-out questions

Quick, efficient application

Bring applicants in greater number and in a more seamless manner by enabling text-to-apply

Speed up the interview process

Speed up the interview process with candidate self-scheduling, standardized scoring and hiring team task reminders

Simple communication with candidates

Whether it's the first or second interview or a simple update, connect with your candidates through the most efficient means possible - texting. Reach them whenever and wherever they are

Easily post to these leading job boards and many more.
