

# Time Collection

Add a modern time clock solution to your timekeeping platform.

No matter if you're in food & beverage, hospitality, manufacturing, professional services or anything inbetween, capturing accurate employee time is crucial to keeping your workers paid and happy as well as saving you time and money.

Whether you use a physical clock for employees to punch in and out or you have a web clock on a computer or other electronic device, we have a secure and easy-to-use solution that will ensure you are protected from buddy punching and other time theft and your employees are getting paid for all the time they work.

## Eliminate Buddy Punching

Research suggests that buddy punching and other time theft affect 75% of all employers. Save yourself the headache with a modern timekeeping solution.

## Achieve Payroll Compliance Peace of Mind

Ensure that you pay each employee for all time worked with a unified timekeeping system integrated with payroll. Stay compliant with federal and state labor laws, and end unplanned overtime, schedule deviations and payroll errors.

## Track Meals & Breaks

Ensure employees take required meal time through clock lockout. Timecards track and provide record of break compliance.

## Secure Clock-in Mode Options

Whether you prefer your employees use their face, finger, card or PIN to clock-in, we have the time clock to keep your information and people safe and secure.

## Find what works for you

We've got a clock for every situation. Check out our clock options for yourself.
